

List of tables

Table 1.1. Labour productivity growth, GDP per person employed (annual average, percent)	4
Table 1.2. Growth in number of persons employed, annual average, percent.....	5
Table 1.3. ICT capital contribution to labour productivity growth (GDP per person employed) in the NMS, EU-15 and the U.S., 1995-2004, in %-points	13
Table 1.4. Contributions to labour productivity growth (real GDP per person employed) of ICT-producing industry in the NMS, EU-15 and the US, 1995-2004.....	16
Table 1.5. Labour productivity growth (real GDP per person employed), 1995-2004	17
Table 1.6. Contributions to total labour productivity growth (real GDP per person engaged growth), 1995-2004.....	18
Table 1.7. Labour productivity growth in manufacturing – Reform Indicator A1.....	19
Table 1.8. Labour productivity growth in manufacturing - Reform Indicator A2.....	19
Table 1.9. Labour productivity growth in market services - Reform Indicator (A1).....	20
Table 1.10. Labour productivity growth in market services - Reform Indicator A2	20
Table 3.1. Estimates for the model (3)	55
Table 3.2. Estimates for the model (4)	56
Table 3.3. Estimates for the model (5)	57
Table 3.4. Estimates for the model (6)	58
Table 6.1. Changing features of shared-cost research actions across FPs	99
Table 6.2. Features of shared-cost research actions within FP6.....	100
Table 7.1. European innovation scoreboard 2006	118
Table 8.1. Comparable indicators of economic performance.....	130
Table 8.2. R&D employment, 1988-2005 (FTE)	132
Table 8.3. Incidence of innovation co-operation in Hungary and in the EU15 countries, by partner and by location: proportion of enterprises with innovation activity indicating co-operation with specified partners in specified locations, % (Hungary: 1999-2001, EU15: 1998-2000)	134
Table 8.4. Share of innovative enterprises indicating co-operation with specified partners (percentage of all innovative enterprises)	135

Table 10.1. Research and innovation inputs and outputs (2005).....	178
Table 10.2. ICT expenditure and intensity (2006).....	180
Table 10.3. Education and life-long learning (2006).....	181
Table 10.4. Knowledge-based competitiveness and its components.....	186
Table 11.1. Educational structure	198
Table 11.2. Quality of tertiary education in 2001-2006	199
Table 11.3. Public and private expenditure on educational institutions as a proportion of GDP in 2003 (in %)	203
Table 11.4. The relationship between the average level of literacy of 15- year-old pupils and expenditure per pupil aged 6-15.....	203
Table 11.5. Average literacy level of adult population (15-64 year olds)	208
Table 11.6. ICT facilities in households and use of internet by population (2005, %).....	209
Table 11.7. Quality of human resources	215
Table 12.1. Geographical concentration of “new economy” companies in Poland.....	222
Table 12.2. E-businesses in Poland in relation to entrepreneurship and population.....	225
Table 13.1. Regional innovation barriers in Slovakia	238
Table 13.2. Overview of Regional Innovation Strategies in Slovakia.....	240
Table 14.1. Clusters of organization modes in EU-4 and EU-15 (in % of labour force).....	253
Table 14.2. Organization modes in industries in EU-4 and EU-15 (in % of industry labour)	256
Table 14.3. Organization modes in professions in EU-4 and EU-15 (in % of labour)	258
Table 14.4. Organization modes in countries in EU-27 (in % of labour force)	260
Table 14.5. Logit estimates of national characteristics influencing organization modes, EU-27.....	262
Table 14.6. Relation between innovation and organization modes	264
Table 15.1. Leading investments of automotive multinationals in CEE, 1989-2001	281
Table 15.2. Profits of multinational automotive subsidiaries in CEE (m of national currency units).....	282
Table 15.3. The main Chinese automotive companies	283
Table 15.4. China’s leading exporters of complex auto parts in 2001	284
Table 15.5. Key financial indicators for the machinery and equipment industry in Kazakhstan.....	285
Table 15.6. Key financial indicators for the electrical and electronic goods industry in Kazakhstan.....	286

Table 15.7. Key financial indicators for the transportation equipment industry in Kazakhstan.....	286
Table 16.1. The development of share of intra-industry trade in manufacturing	298
Table 16.2. Indicators of comparative advantage of the Czech Republic in terms of technology intensity	299
Table 16.3. Internationalization of production and trade in the Czech Republic based on technology intensity.....	299
Table 16.4. Export and import of high-tech products in the Czech Republic - direct and indirect (processing) trade shares (%).....	302
Table 16.5. Shares of foreign investors planning to change regional focus of R&D expenditures, 2005 (%).....	305
Table 16.6. Position of the Czech Republic and the key determinants of its innovation system	307
Table 16.7. Structure of manufacturing FDI (as at December 31, 2004) and the role of foreign companies in the Czech Republic in terms of technology intensity, 2002 (% of the business sector).....	307
Table 16.8. Business sector R&D expenditures (in CZK million)	308
Table 16.9. Structure of manufacturing export and the R&D intensity of value added, the share of foreign affiliates in value added and in R&D expenditures in the Czech Republic (%)	309
Table 16.10. Share of innovative companies (INNO) and innovation intensity (INT) in the Czech Republic, 2002-03	310
Table 17.1. General economic characteristic of the analyzed companies according to the type of ownership, 2005	320
Table 17.2. Selected R&D indicators for 2005 of the surveyed companies according to the ownership structure	320
Table 17.3. Structure of R&D expenditures in 2005 of the surveyed companies according to the ownership structure	322
Table 17.4. Structure of R&D financing of the surveyed companies in 2005 according to the ownership structure	323
Table 17.5. Branch share in R&D investment and R&D intensity in 2005 of the most R&D investing companies from selected sectors in EU and Poland.....	326
Table 17.6. Annex 1. The list of the top 15 R&D investors in the EU in 2005.....	330
Table 17.7. Annex 2. The list of the top 15 R&D investors in Poland in 2005.....	331
Table 19.1. The evolution of Megatrend's performance indicators	347
